## Profile

I'm Cao Anh Vu, a Software Engineering graduate from HUTECH, currently awaiting official graduation. I've gained hands-on experience through academic, personal, and company-based projects as a Full Stack Developer.

Skilled in HTML, CSS, Tailwind CSS, JavaScript, TypeScript, React, Node.js, Java, Spring Boot, C#, and .NET, I focus on building scalable web apps, developing APIs, and system integration. I also have basic IT support experience. Passionate about full-stack development, I am always eager to learn and take on new challenges.

See more details about me at: <https://portfoliomecaanhvu.vercel.app/>

## Education

University of Technology in Ho Chi Minh City (HUTECH)

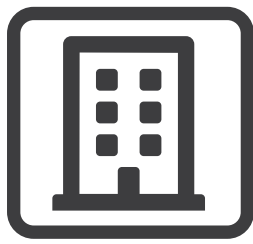

9/2021 - Present

Major: Software Engineering

GPA: 3.2

Academic Achievements

- Consistently recognized for high academic performance and awarded as an outstanding student each semester.
- Actively involved in extracurricular activities, technology competitions, and workshops hosted by corporations and tech companies.
- Acquired various skill certifications from universities and technology corporations.

## Work Experience

R2S Joint Stock Company

04/2025 - Present

Position: Frontend Developer Intern - (ReactJS)

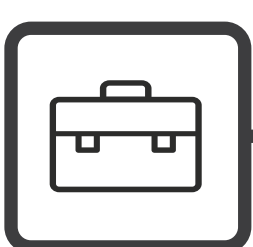

- Participate in research and development; write code and propose new features.

## Project

Real-time Online Auction System (Web Application Java Spring-boot)

04/2025 - 5/2025

Position: Full-Stack

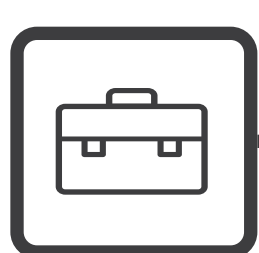

Team size: 1

**Description:** A comprehensive online auction platform that enables users to create auctions, place bids, and participate in real-time bidding activities. The system features secure user authentication, automated auction management, real-time bid updates via WebSocket, email notifications, online banking payment processing through VNPAY API integration, and administrative dashboards for both sellers and buyers.

**Technologies Used:** Java 17, Spring Boot, Spring Security, Spring Data JPA, Spring WebSocket, MySQL, Thymeleaf, Bootstrap, Maven, HTML/CSS/JavaScript, SockJS/STOMP, Jakarta Mail, VNPAY API.

**Github Link:** <https://github.com/CaoAnhVu/auctions-system>

# Project

Freals – A Social Media Web Application with Real-Time Chat (ReactJs + Vite)

08/2024 - 10/2024

**Position:** Full-Stack, Team Lead

**Team size:** 1

**Description:** A social networking application that allows you to expand connections with people around you, friends share their memorable moments with each other through posts. More specifically, we can text each other in real time.

**Technologies Used:** ReactJs, Vite, TailwindCss, Typescript, Chakra UI, Nodejs, MongoDB, Socket.io, Cloudinary, Figma, Github.

**Github Link:** <https://github.com/CaoAnhVu/social-media-freals>

Pulse - Music Web Application (Spring Boot)

05/2024 - 07/2024

**Position:** Full-Stack

**Team size:** 3

**Description:** A music streaming web application using secure Spring Boot and Thymeleaf.

**Technologies Used:** HTML, Css, Javascript, Java Spring Boot, MySQL, Cloudinary, OAuth2, Thymeleaf, Github.

**Github Link:** [https://github.com/CaoAnhVu/pulse\\_music\\_sb](https://github.com/CaoAnhVu/pulse_music_sb)

PlantLover – E-commerce Web Application (ASP.NET Core MVC)

03/2024 - 05/2024

**Position:** Full-Stack, Team Lead

**Team size:** 2

**Description:** An e-commerce web application for selling ornamental plants using Identity for security.

**Technologies Used:** EntityFrameworkCore, C#, SQL Server, Identity, Figma Template, Github.

**Github Link:** <https://github.com/CaoAnhVu/E-commerce-Plantlover>

# Main Skills

Basic Language	C/C++, C#, Java.
Front-End	HTML, CSS, Javascript, Tailwindcss, ReactJs.
Back-End	Spring Boot, ASP.NET Core, .NET, NodeJs, Restful API.
Database	My Sql, Sql Sever, MongoDB.
Technology	Figma, Postman, Vercel, Vite, Github.
English	Proficient in English at CEF B1 level.

# Activities

Workshop Testing & QA	10/2023
Workshop "Software Testing & Quality Assurance"	10/2023
Workshop on Agile & Scrum Software Development Processes	10/2023
Workshop "Effective Project Management & Software Development Process"	10/2023

# Certificate & Education

Information Technology Talen Search Contest 2024.		12/2024
JavaScript Essential 2 (By Cisco Networking Academy).		11/2024
JavaScript Essential 1 (By Cisco Networking Academy).		11/2024
CEF Level B1 (By Ho Chi Minh City University of Technology).		09/2024
Data Visualization with R (By Powered by IBM Developer Skills Network).		12/2023
Agile & Scrum Software Development Process (By LogiGear Company).		10/2023
Testing & QA (By LogiGear Company).		10/2023
